Pending Commitments
Introduction

At the end of this module, you will be able to perform the following tasks in the FPL Assist Web Portal:

• View commitments pending approval and rejected
• Approve pending commitments
• Reject pending commitments
Pending Commitments

Users of the FPL Assist Web Portal can be assigned roles that require their commitments to be approved before they are submitted onto a customer’s account.

It is important that as an approver, you review your pending commitments in a timely manner. Failure to review the commitments in a timely manner can result in accounts being disconnected for non-payment or delay reconnection of accounts.

The FPL Assist Web Portal will notify you that commitments are pending approval by displaying a red number on the commitments and pending cards.

Let’s review the steps for approving or rejecting pending commitments.
